

# LC Quad Fiber Optic Adapter with Flange

## Overview

A fiber optic adapter, sometimes also called a coupler, is a small device designed to terminate or link the fiber optic cables or fiber optic connectors between two fiber optic lines.

By linking two connectors precisely, fiber optic adapters allow the light sources to be transmitted at most and lower the loss as much as possible. At the same time, fiber optic adapters have the merits of low insertion loss, good interchangeability and reproducibility. Fiberstore supplies a wide range of mating sleeves and hybrid adapters, including special male to female hybrid fiber optic adapters.

## Benefits

- $\leq 0.2\text{dB}$ (Typical) Low Insertion Loss
- SC Footprint for Upgrading Systems Without Redesigning Hardware
- Color Coded for Rapid Fiber Management
- 2x Duplex Dust Cap Keeps Adapter's Interior Clean from Dust
- Stainless Steel Clips for Tool-less Snap-in Installation
- Available in A Variety of Connector Types
- Can be Used with M2 Model Screw
